ANIMADVERSE ISSUE:9

July-August

Animadverse is published approximately bi-monthly. It is published, edited and distributed by the Animadverse Collective. The Animadverse Collective is a group of people who share similar ideas and actions towards the right-wing scum and all forms of authoritarian control. We are primarily anonymous, but only to a certain extent (which is not placing our names to the articles, ideas and actions we do or write.) This is done for many reasons, such as security.

Our struggle is Autonomist and Anarchist. We do see a difference between the two so we state our differences, but we are a collective and base our struggle on the analyses that arrive from it. We believe in Self-Determination and ones Autonomy for an effective resistance, in which we see a process of revolution.

ANIMADVERSE is a non-profit publication produced at will. We offer paid advertisement, which is exceptionally cheap (prices below). No one is paid for ANIMADVERSE. Donations are always accepted to help keep this publication coming out on a regular basis.

Editorial Notes...

Welcome to issue #9 of Animadverse, and yet another issue and another change in lay-out. There are many reasons for doing this. One being the property of distributing a free bulletin and lack of funds, we found we were losing lots of money for most of the publication was being put together and published with the money from our pockets, besides subscriptions, bulk orders, trades etc... Which didn't equate the amount it was costing us. (But there was a proposal in a meeting about distributing a bi-weekly or tri-weekly news/information bulletin.) Anyways... through evolution we have decided to charge for the paper(\$1.00)!!! This was done to help pay for the paper and distribute it on time. We have also decided to offer paid advertisement, which is really cheap. We found the larger format to give us a bit more freedom in lay-out, and more room to include the matter herein. We have been receiving a lot more information and thanks to all those have sent us info. Which is also a reason for changing the lay-out.

If you didn't notice!!! This issue of Animadverse is late, but so is the revolution!!! A lot of the stuff printed is almost out of date, and we blame computer and financial problems on this. 1) We are broke. 2) We are very broke. 3) There is going to be a benefit for Animadverse soon. (Contact Animadverse for more info.) 4) Donate some money! Subscribe! Anything you can do to help would be appreciated.

Politics...

The revolutionary anarchist movement across North Amerikkka seems to be discov-

ering and discussing the aspects of the autonomous struggle. Including that of the anarchist aspect of Anti-Authoritarianism, self-management, direct action etc...but including social struggles in a post-capitalist society, beyond the structure of one mass anarchist movement, but including as many struggles as possible of that of exploited peoples in the area in which they live under, and so on. Some members of Animadverse are going to try and get involved in this discussion so keep in touch.

Also, all the people who have written to us, and are waiting for our response, and we haven't responded and wrote back yet, you will probably get one soon. We have been real busy and we hope to write you back as soon as possible. We appreciate the letters, etc... Sorry for the wait. Thanks!

Orchard Park Students Unite Against Racism

Racist attacks are on the rise in Stoney Creek. However its not a new thing in this area, its been kept underground for many years. Organised hate groups have and still do work with students from Orchard Park Secondary School. This school is the largest recruiting place for hate in the city.

HISTORY

For the past six years on so, there has been a large amount of neo-nazi's in Orchard Park. These students are well connected to groups such as American Front, WAR (White Arian Resistance), Klu Klux Klan (The Invisible Empire), The Heritage Front, and COTC (Church of the Creator). Neo-nazi students have held meetings with leaders from these groups outside of school, passed out hate literature to other students, and write graffiti through out the school. The graffiti ranges from old German symbols to death threats to students of colour.

VIOLENCE

There is always fights in most schools, but usually not as brutal and as frequent as at Orchard Park. The amount of "after school" fights caused by racists are many. Students of colour are laughed at and pushed around everyday. These past two years are the first that racists have taken there violence off school property. Students are being attacked outside of their homes, at work and other public places.

Two years ago a Sikh student was beaten by a group of racists outside of school. A week later a dozen people (not from the school) came to the school to confront those who beat the student. They were greeted with 300-500 white students who were throwing rocks and screaming at them. They were beaten and their cars were demolished.

This past year, racist violence has increased rapidly. A Sikh student had a white power symbol burnt into his front lawn and had his car blown up outside his home. Many anti-racists have had there tires slashed and have been receiving death threats on the phone regularly.

THE BASTARD

The schools principal Bob Elliott,(who is now retired) is a known racist. He has let this go on for as long as he's been at the school. Parents and students have complained, some have taken it to the school board but nothing has been done. Bob Elliott has suspended a few racists who have attacked other students, however, the ones attacked were suspended as well. Last year he banned white supremacist shirts and white laces and shirts of great black leaders and the wearing of African colours. He concluded that was the problem. A neo-nazi well connected with WAR, KKK, and Heritage Front talked with Bob Elliott and had the ban of racist shirts was lifted.

ORCHARD PARK DANCES

The schools dances are almost always violent. There is always a fight during or after the dance and racial slurs are alive and well. Racists from other schools usually come and meet up with those from Orchard Park and cause trouble.

The 1993 year end dance resulted in four Sikh students being beaten badly. It started inside the school where white students complained the DJ wasn't playing enough "white music". There was the constant racial remarks, and some verbal arguments.

There was a planned fight which was supposed to take place between Orchard Park students and students from another school. After the dance students went across the street (at a plaza parking lot is where most fights take place) and discovered the fight was not going to take place. Racists were armed with rocks,

two by fours and bats and were pumped up for a fight. At the same time two Sikh students were crossing a field beside the plaza on there way home. People

started yelling "kill the paki's" and 150 white students charged through the field at the two. The Sikh's turbans were ripped off and they were beaten repeatedly with the bats, rocks and two by fours. Two others jumped in to help the two, but there was to many people for them to hold back. One student got away unharmed, but the other was beaten as well. There were two pigs on the scene who just stood and watched, and didn't even call for an ambulance. Another Sikh student also had his van trashed.

The three students managed to crawl back to the school, and two of them were taken to the hospital and remained there for a few days.

The next day, a few of the attackers brought a turban belonging

to one of those beaten, flung it around on a stick, laughed and hollered, then threw it in the dirt and stepped all over it. Bob Elliott suspended six of the racists for the rest of the year (less than a week) and he also suspended those beaten. They were all allowed to take year end exams, and the attackers got police escorts to and from school. The victims received nothing!

FIGHTING BACK

The students of Orchard Park finally had it with the racist bastards in their school. Several students spoke with Hamilton Anti Racist Action (ARA) and together they organized a

LEZBOPHOBIA IN BRITIAN

On 21 September 1991, the British State imprisoned Jennifer Saunders for living her life in a way it regards as morally undesirable. Jennifer received a 6 year sentence for mutual lesbian sex. Doncaster Crown Court Convicted her of "Indecent Assault" using the following legal excuses:

-One of her girlfriends was "under Age" at the time (15, While Jennifer was 16 or 17)

-She allegedly kept up a pretence that she was a man, while fucking her girlfriends with a strap-on dildo! It seems that this deception was considered to have invalidated her girlfriends consent in the eyes of the court.

Jennifer stated that she never pretended to be a man to either of her girlfriends. However she did make this pretence in court to the family of Rebecca Andrews (one of her girlfriends) Jennifer was protecting Rebecca from her family, because of the consequences Rebecca would face if her family found out she was a lesbian. Jennifer would more than likely put up more of a defence, if she had known 6 years of her life would be taken away from her.

Judge Jonathan Crabtree who presided over the case proved his homo - hate, by

stating that Jennifers girlfriends would have been better able to cope with their "assault" if they had been raped by a man. This ignorant bastard who the state employed, is only one more homo - hater to add to the list. Obviously the state does not employ people to protect queers (what else is new.)

There is no justification for Jennifer's imprisonment. Furthermore, I cannot conceive that Rebecca could believe that Jennifer was a man in their relationship of 18 months, which involved 6 months of living together. The fact that this was consensual lesbian sex is the only reason for a 6 year sentence. SHE MUST BE FREED!

DEVELOPMENT IN BILL DUNNE'S CASE

Bill Dunne, a p.o.w. arrested in 1979 with Larry Giddings after the failed rescue attempt of a comrade in prison, is currently appealing a suit he has filed against the prison system for cheating on his prison sentences. Bill, who is facing 90 years for the '79 action (state & federal charges) and another 15 for his escape in 1983 (federal charges), is fighting for freedom on the grounds that by applicable law, jurisdiction over him has been surrendered and his sentence legally completed. This stems from a change in his status as a state prisoner to a federal prisoner in '91. According to legal precedent, these actions both violated his right to serve a continual sentence (in other words, not serving it sporadically in piecemeal amounts) and also, by surrendering him back to the state prisoner status in '85, the federal authorities surrendered jurisdiction over him, rendering the federal conviction satisfied, and thus giving him an implied pardon for the rest of his sentence. As it stands however, the authorities are trying to add an effective 6 years of prison time onto his sentence by these maneuvers. We will be following his appeal here at the 7th Circuit Court of Appeals and developing a campaign of support for it. If Dunne wins, this would also make it likely that Larry Giddings could present a similar case for his release.-from Anarchist Black Cross (Chicago)

FREE GUNTHER: (ANTI-FASCIST PRISONER)

On 6 January 1993 Gunther, an anti-fascist from Wiesbaden, Germany was arrested and accused of disturbing the peace, serious assault and damaging property.

Earlier that evening a meeting held in neighbouring Mainz by "Deutschen Alternative", a prohibited nazi organization, was attacked. Two nazi cars were demolished, several nazis injured.

While police tolerated this illegal meeting, they set up road-blocks to find anti-fascists involved in the attack.

Gunther was arrested at one of these road-blocks.

Although there is no concrete evidence to link Gunther to the attack he's been imprisoned on the justification he might run away or tamper with the evidence.

On 17 April a 2000 strong anti-fascist demo took place in Mainz, where 300 neo-nazis were celebrating Hitler's birthday. A central demand at this demo was for Gunther's freedom.

ROCK AGAINST PRISONS

On Saturday August 7th, in Grandview Park British Columbia, Rock Against Prisons took place. This event was a smash, with great support from the community. Tables with information were set up ranging from native struggles to wimmins solidarity. Spartacus books (who else!!!) was present selling books for outrageously high prices. Speakers from Third World Alliance, OH-TOH-KIN, Irish Solidarity Committee and many more informed the crowd with information with different struggles.

Free food was given out to anyone who was hungry. (Hot Vegetarian meals) Music from folk to rap to punk bands played, most impressive was Culture Hype Crew, an Indigenous rap band, rhyming off lyrics about Na-

tive struggles. A band worth checkin' out.

Rock Against Prisons also took place in Toronto with ska bands and others, it should take place all over. Hopefully next year it will have grown.

THE SCUM PAY UP!

The federal government must pay \$12,000 to Kevin Abbott (a former prisoner at Collins Bay Penitentiary in Kingston Ontario.) who was imprisoned for break and entry. Abbott was shot and maced "negligently and intentionally" while he inadvertently ended up between two prisoners and a half-dozen guards during a fight Nov 17, 1986. He was later (after the fight) beaten and subjected to cruel and unusual punishment and forced into segregation for 100 days.

Abbott was given \$1,000 for being shot, \$1,000 for the 100 days in segregation and

\$10,000 in exemplary damages. Ottawa also must pay interest on the money and Abbott's legal expenses.

The scum pay up, like they should. The judge sais this (the shooting, etc...) is not a good day for justice in the prison system. And he "blasted prison authorities and Ontario Provincial Police for reprehensible conduct. That makes the millions of people in prison a bit safer, finally... a judge that believes in justice!!! Fuck the Justice system, there's no justice.

ARA SHUTS EM' DOWN!

The June 11th Demonstration

On 11 June 1993 there was a march on a Nazi centre of operation. This Nazi centre of operation was Gary Shipper's house, 97 Bertmount St. the home of the Heritage Front (HF) Hate-line, where Shipper preached fascist intolerance and recorded openly violent, racist, sexist, anti-semitic and homophobic messages to recruit and organise people to the Church Of The Creator (COTC) and HF.

The march started at a community centre in Toronto where there was speeches and information given to the 300+ people, who were all listening, eager and ready to go. People from all over were present such as the Hamilton and Ottawa Anti-Racist Action and others. Undoubtedly this march was going to be fun, serious, and successful, for hardly anybody (including the police and media) knew where the march was really going to lead. This was done for security reasons and was a witty tactic and it even fooled the fascists themselves. Ernst Zundel, the holocaust denier, (as well as police, media) thought the march was going to lead to his home, he covered it with plastic, had HF and COTC members on guard, and a protecting police presence.

When the march was on its way it went for a few blocks and boarded onto the TTC (the Toronto street cars). This was an exiting event and a free ride for quite a few people, who boarded through the back doors, right past the pigs who couldn't do a thing but step out of the way. The street cars were packed tightly. The masked anti-racists stopped off at a park a couple blocks away from our target, and waited for the other people to arrive. The march was on its way.

The marshals of ARA kept a close security for the people, and maintained the linked arm process in which it accustoms. There was also people handing out information pamphlets to people viewing the march, and to every body else's mailbox on the way to

Shipper's house (even in his box). People applauded after reading why the march was going through their community, and agreed to the motto of the march "To kick nazis out of our communities." The media of course played it out as if the community disagreed. The crowd by this time was getting even more excited for the house was getting closer, they chanted slogans such as "Hey! Hey! Ho! Ho!, Heritage Front has got to go", "Heritage front go away, Racist, Sexist, Anti-Gay", "Immigrants In, Nazis out!!!" and many others. The Nazi's house was in our hands!!!

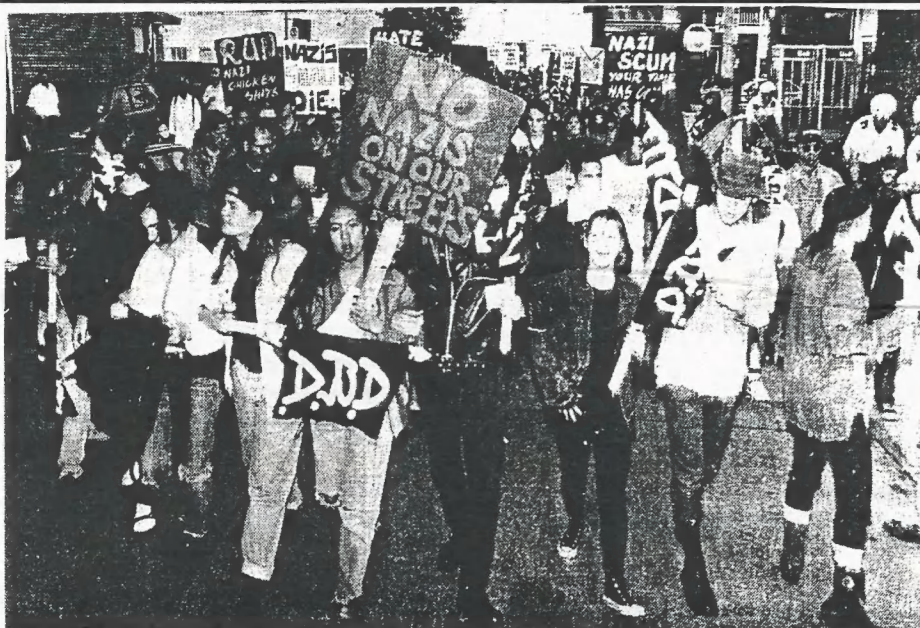

When the march ended up on the property, people were really eager to attack, and distributing their revenge. Eggs, paint-bombs, rocks,

being cornered and gassed by the police was in mind. (Even though the pigs weren't prepared to well.) I would say this march was a success!!!

After the demo

After the demo, later that evening, Wolfgang Droege the leader of the right-wing group Heritage Front (Who is a former leader of the Canadian Knights of the Ku Klux Klan (CKKKK) and was also convicted and imprisoned for three years by the u.s. courts for an armed invasion attempt to take over the Caribbean island of Dominica as well as cocaine trafficking.)

showed up with other fascists at Shipper's house. They were enraged got together with about 40-50 other fascists and trucked off to find any ARA members. They went to one of the clubs where many ARA folk hang out. A fight broke out between the 60 people, fascists and Anti-Racists, but the outnumbered Anti-racists fought off the fascists and severely injured and scared them away in more ways than one!!! Wolfgang Droege was charged with concealed weapon charges, and was

cans full of bolts, smoke bombs, firecrackers and almost everything or anything else was hurled at the house. Masked anti-racists attacked, smashing windows in the front and side of the house, the door smashed, rocks holding up an empty garden were hurled through the windows, it was beautiful, exciting and the suitable thing to do to fascists.

All that was present was the two flags sprawled out on the inside wall, the confederate and Amerikkkan flag, (How about that for a proud Canadian). Nobody went in the house for various reasons. The house could have been burned down if wanted, but it was connected to other houses and there was to be no harm to the community. All actions were on the Shipper's house and nobody else's house was affected. A lot of people were chanting "IN...IN" but for safety reasons and the risk of

smashed across the head a couple of times by an ARA member. Another ARA member got his jaw broken, and one womyn got charged for "assaulting a police officer", but in fact she was trying to get by the pigs to get at the fascists.

Many people have been feeling regret about the action and there has been continuing talks about: "If the action was a tactical error."

A tactical error?

A tactical error? We say to ourselves. What are you talking about?!? This was a tactical success! ARA made their militant mark once again, many people thought that it was lost, but here it was again... militancy and suc-

cess. The fascists of course were going to respond...probably violently. People should know that when they get involved in an Anti-Racist group, especially ARA. To cut yourself up and bring yourself down because of an anti-racist demonstration or action is a success for the fascists, not anti-racism. We have to be inspired by this action, inspired for the embarrassment and loss for the fascists, inspired by yourself, to show your determination and power over fascism.

People have brought up the pacifism vs. violence issue. Such as how fascists want violence and they like fighting(beat people up) because its at their level, and ARA are bringing themselves down to the fascists level. Well, yes maybe fascists like fighting(beat people up), violence, murder and torture, but does this relate to ARA? I hardly think so. ARA try and stop the beating-up of people, the violence, the murder, the torture against immigrants, people of colour, gays and lesbians and other people facing the violence by fascists. ARA doesn't go and demonstrate against fascists for no reason. Anti-racists that are in conflict with ARA seem to be ignoring the fascists, saying it's okay for the fascists to speak-out, murder, beat-up people to do their own murderous thing and that they wont receive any base-level confrontation, that's ridiculous.

ARA are actually doing something against the racist-right all over, since ARA works on a network, they have started in many areas such as Ottawa and Hamilton. ARA provides for people, it provides immediate satisfaction,

takes matters into their own hands. The Toronto ARA's basis of unity is "Anti-racist action will expose, oppose and confront organized racism, the far right agenda and other forms of oppression through mass action and support of broader anti-racist struggles." They also believe in zero tolerance for nazis. Nazis are killing people and injuring many people as close to home as... your backyard. If fascists find an ARA member's or an anti-fascist's home address they go and smash it. This all has to stop, and they have to be stopped. ARA provides an outlet for people to direct their anger in an organized matter. When you get in a fight with a fascist it's a fight in self defense, fascists are all about murder. If you mix your anger and rage into an organized matter and with other peoples views and anger, it becomes stronger, you become stronger and your success to smash fascism becomes more of a reality.

ARA is a militant and successful group, the actions that took place the night of June 11, weren't commanded by any "leaders"? of ARA. Members and founders of Toronto's ARA are being charged for organising property damage and intent and counsel to commit mischief. This is not true at all. The actions were performed by those of the individual, not by a hierarchial force, they weren't told to "Smash this house". They crowd was showed where the house was, told who lives in it, and what it was used for, so people made their mark, like we all should. The action was carried out by the individual's fury, rage and anger against fascism. And if you didn't want to

smash the house you didn't have to.

The 11 June demonstration did cause some fear in all of us, and the action brought the fascists out in the open. The tactic that you... yourself take against fascists is your choice, if you choose to smash the fascists physically, do it! If you choose to smash the fascists by other means, do it. As long as we do it together, it has to be done and it is possible. You as well as I want to see the fascists crushed. Together we stand, divided we fall. Fight fascism and lets make sure we SHUT' EM DOWN.

SOUTH AFRICA?

As tension builds in many of the townships in South Africa, the proposed date for the first "non-racial" elections 27. April, 1994 is approaching quicker than it seems. As the election date is set we can still see the Apartheid madness covering the issue of bigotry even more. The rising tides of hatred are brewing on both sides of the issue, the proposed race-war by the Afrikaner Resistance Movement (AWB) is an issue which can't be joked about. Extremists on both sides are ready for any means necessary, especially the side of the exploited and oppressed... the black South Africans.

South Africa, whether it breaks out in war now or later, it looks like it will break out. From so many years of state repression in South Africa we can see the struggle from the left explode on many occasions. One case is that of the High Treason conspiracy case where 1 man was sentenced to death and 11 others imprisoned for 184 years each. Few examples of the lawful repressions, the twelve treasonists, the police murders, and the recent conflicts between the AWB and left are mentioned throughout this issue.

But once again we at Animadverse are not in support of the ANC, for we do not believe in tearing down a government to only build another one up. We believe in Anti-Authoritarian methods of organization, but the mentioning of some groups which work off of authoritarian means will be mentioned. (such as elected councils) Lets get organised and learn off of each other, if you have any information on recent issues on South Africa send it to us and we will probably publish it. This is all a part of learning and understanding the struggles in South Africa for all of us, so get involved.

South Africans Lawful repression

South Africa projects its political system as a western-style democracy based on an independent judiciary. Detentions and interrogations of those suspected of being a threat to "their" maintained system and state security are conducted according to fucked up laws, and when the state collects (or make up) enough evidence to take to court, detainees are charged and tried. Although such "crimes" are often no more than possession of banned literature or the display of anti-government views, the trials are never described as politi-

cal. Those who violate South Africa's security laws are "criminals", a label aimed at depoliticizing their opposition to unjust laws. For example the 1984 death in detention of Paris Malatji highlighted a new method of detention being used by security police: holding people under Criminal Procedure Act, but treating them as security detainees.

Often interrogation is not aimed at eliciting a confession or evidence to be used against detainees in their own trials, but rather at coercing them to give evidence in the trials of fellow detainees. The outcome of many political trials depend on the testimony of state witnesses. While many detainees give in to the pressures of solitary confinement, security police torture and agree to take the witness stand for the state, but an increasing number do not. The court room has become a theatre of resistance, as detainees brought to the witness box by security police choose to return to their cells rather than testify for the state against their friends and colleagues.

The twelve treasonists

We can see how the system takes care of things and forces people to deprive their political status in prison. I can think of one example of state repression. On 1 August 1979 the state of South Africa, (rather the Pietermaritzburg Supreme Court.) convicted 12 men of High Treason, conspiracy to commit murder and to overthrow the government. The state declared that the accused recruited people, trained guerilla warfare, armed them, and deployed them in South Africa to

overthrow the government. The state proclaimed that the 12 trained at the Engineering camp, the Benguela camp, the Nova Gagenga camp and the Quibaxe camp in Angola, the Mambeshe ZAPU camp in Zambia, and the Privalie camp in the Ukraine, Russia. The state claims that the men attempted to bring AK-47 rifles into the Msinga area and that they established arms caches in Natal in the districts of Ndumo and Nongoma and reconnoitred pipelines at Merebank, near Durban, in order to sabotage them.

On 12 November 1979 the 12 suspected "terrorists" repeatedly broke into song, gave Black Power Salutes, and shouted war cries when they entered their specially made security glass dock in the courtroom. The twelve's supposed leader shouted, "Down with capitalism, Down with Fascism!"

This case was accompanied by one of the strictest security measures ever seen at a South African trial. Squads of police armed with riot

gear, rifles and submachine guns, guarded all entrances and exits to the court building. All vehicles entering the court grounds were searched, and members of the press and public were body searched before being allowed into the courtroom.

The trial ended with South Africa's first convictions for High Treason outside war-time, and the supposed leader of the 12 defendants - whose singing, chanting and general contempt of court most angered the judge - received the death sentence. (Mange's death sentence was the first imposed for treason since the 1942 trial of Nazi sympathizer Robey Leibbrandt, who was pardoned after the National Party came to power.) The other 11 were sentenced to 184 years in prison.

We can see that the left in South Africa have been ready to fight for years and the South African government will go to any means to imprison and murder the people exposing the states oppression. Through the governments tactics against the people of South Africa we can clearly see their system of apartheid breeds and distributes the anger in the exploited, oppressed and repressed people of South Africa. However we can also see this is not from choice but a necessity, the exploited are accustomed to revolt against their

exploiters, this is where the justification of any means necessary to stop the exploiters arrives and to try and live a reasonable life is seen possible.

The Police Shootings

The police in South Africa have had a long history of shooting without warning shots. An example was one of South Africa's most wanted criminals in the past, bank robber Andre Stander, was a former police lieutenant and the son of a high-ranking cop. When Stander was murdered by Amerikkkan police in a hide-out in Florida in 1984, after escaping from a South African prison, evading a police dragnet for months, and finally fleeing the country. Stander's hatred with police methods came to a climax during the 1976 uprisings when his father said he killed 22 blacks. Andre always got along with his black colleagues, but as a pig he was forced to separate and repress them.

Police shootings are one of the most spine tingling form of state repressions, and the number of people shot by the pigs in South Africa has risen drastically during the recent years of "reform". A total of 211 people were

shot and killed by the South African police in the execution of their duties during 1983. Also reported was that of the 211 people murdered by police, nine were juveniles, 169 were black adults, 29 coloured and four white. Other reports concluded by Natal University academics revealed that 1300 people were killed by the police in between 1972 and 1982. The figure in 1972 was 92 killed and 299 wounded. Five years later, this had increased to 163 killed and 495 wounded. The number increased throughout the years extremely, imagine the number now

"My Mother" by Chris van Wyk:

*My mother could never carry me
while they used the warmth of her womb
to forge their hearts into hatred
My mother could never wean me
because they dried her out
until her tits were arid tufts of drought
My mother could never embrace me
while she kept house for them
held their children
My mother is boesman meid
a kaffir girl
a koelie aunty
who wears beads of sweat around her neck
and chains round her ankles
But, defrocked of dignity
my mother has broken free of the heirlooms
of oppression
These days she dresses in the fatigues of
those
grown tired of serving evil gods
Now my mother is dressed to kill*

or even a couple of years ago.

The police in South Africa; the tools of repression are murdering thousands throughout the years, we can only come to believe that the extermination of the police and apartheid, or rather white rule has to be seen to the end. The ANC who have had regular examples of torture, ill-treatment and executions in their camps, don't seem to be a step forward for the people of South Africa, yes, if they win the Black majority rule they will be breaking the years of white rule and a system of apartheid. But the road is a long one, the AWB are determined to stop the majority rule.

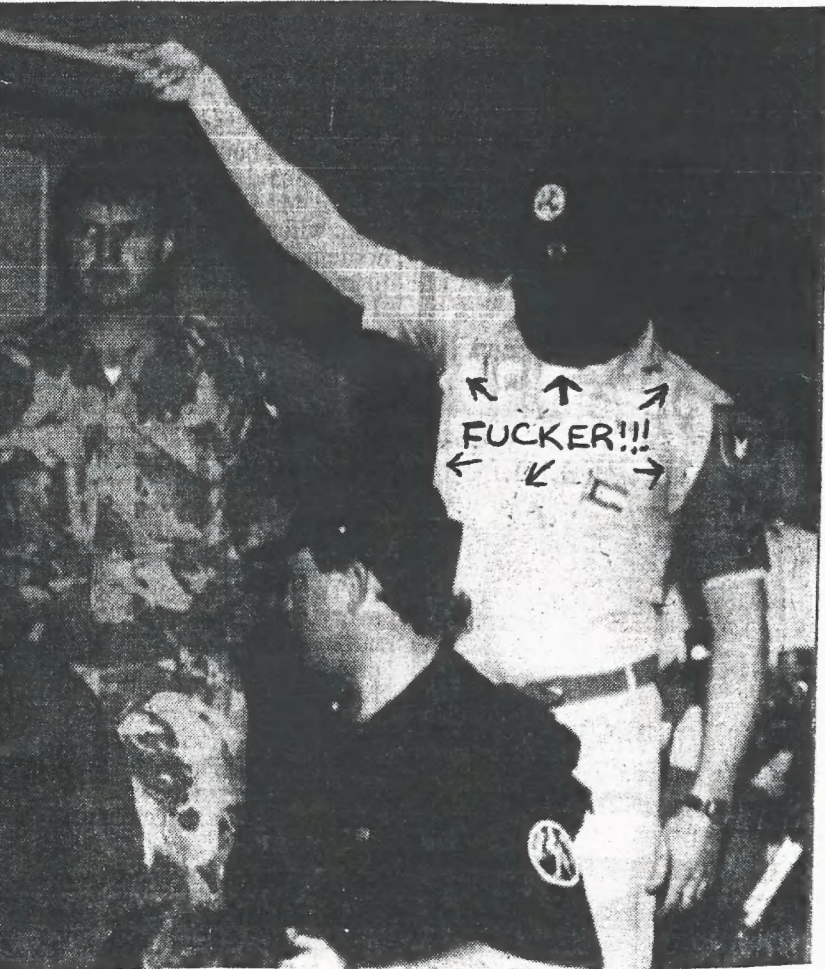

The Recent Conflicts between the AWB and the Left

Again, as the set date for the first non-racial election 27 April, 1994 is in place. Extremists on both side of the racial divisions in South Africa are willing to kill or die for their vision of what South Africa will be after 27 April, 1994.

Known all too well was on June 25 in Johannesburg when hundreds of armed, uniformed white extremists, (the AWB) invaded into the World Trade Centre building in South Africa by smashing through the glass doors of the building with an armoured car. They invaded to disrupt "democracy" talks between the government, the ANC and other groups and a planned session to discuss calls by Mr. Hartzenberg's Conservative party and other parties for a white homeland in post-apartheid South Africa.

F.W. de Klerk ordered a crackdown on the AWB and others and arrested about 30. Imag-

ANARCHIST QUEER CROSS

The reason this is titled *Anarchist Queer Cross* is the article directly deals with queers, homophobia and aids in prison.

"There in here for us, were out for them". That quote says it all. Nothing can be more true, but what about those of us who have never been incarcerated? Can we truly know the loneliness and the isolation our sisters and brothers must face day after day in the prison system? Imagine the pressure queers are forced to deal with.

COMING OUT

Queers love other queers with as much feeling and conviction as I'm sure my straight comrades do. Now lets first off examine who divides homo's and hetro's. The state is our first and foremost enemy. They thrust anti-queer propaganda at us with their discriminatory laws and straight white culture. (ie. tv and movies) Secondly is the church, with their stereotypes and "divine being". The church condemns queers because of their double standards and a single book that was written centuries ago. Last but not least is the school system. Queers are never taught about their sexuality and therefore must stay in the closet and feel ashamed.

Now that we have covered a very small portion of those who divide us, lets think about the oppression queers must deal with. Queers who "come out" face degradation, humiliation and sometimes murder. Prison inmates may deliberately "pick on" queers because of stereotypes of gays and lesbians, but an issue of most importance that we all seem to overlook is the prison guards and officials. Since mail is screened regularly, guards can single out queers and make their lives a living hell. Harassment can hurt in any form, from name calling to rape, beatings and death. Queers may even attempt suicide to escape the daily barrage of threats made against them.

Aside from constant insults and threats queers must also deal with the loneliness and isolation they feel. Since queers are not visible minorities they must depend only on outside correspondence with other queers for companionship. Another key factor queers must face is the loss of loved ones. In some

parts of the world the state allows heterosexuals to have conglcal visits. Queers have no such luck. Since our sex is against the law (sodomy 101), the state denies us our right to love.

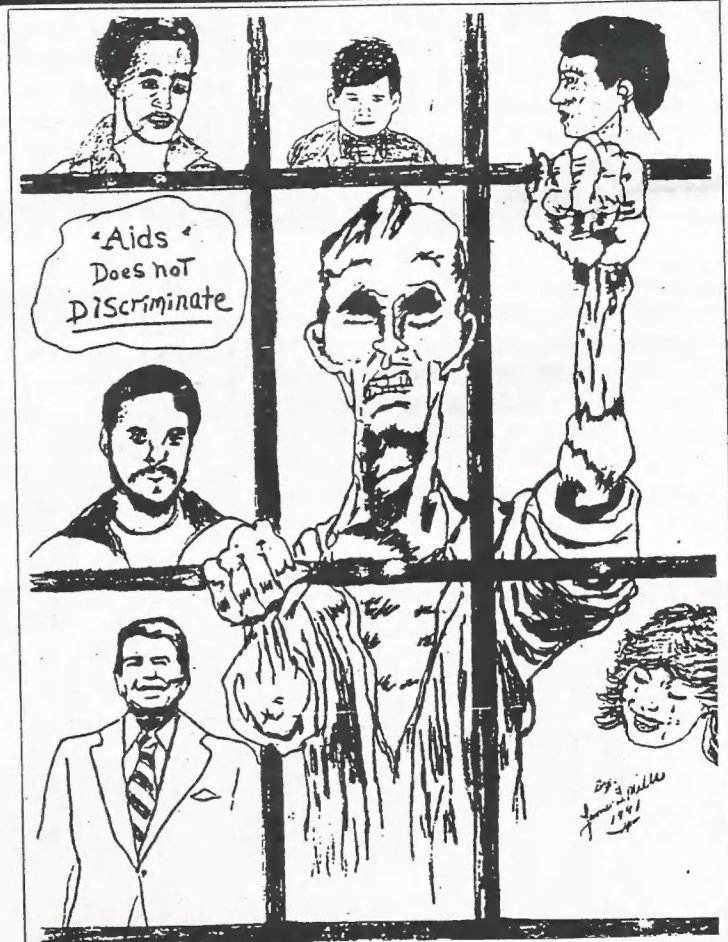

QUEER CENSORS- HIP

Prison censorship is very common, not only amongst "Radical" literature, but also of gay and lesbian publications.

Many Queers who are politically active are there are denied twice as much as a heterosexual. Prison officials can calm that queer papers encourage "unlawful behaviour", and promote indecency. Queer must learn to cope with the loss of what is going on in their community, mail contact from the outside is screened leaving queers both disillusioned and deprived of comradeship.

A.I.D.S (Acquired Immune Death Sentence)

Many of us are familiarized with the disease A.I.D.S. and how to avoid contracting it. Before I go any further with this article I am not going to deal with contracting H.I.V. or the research, as that would take this entire paper to do so. How-ever for queers in prison A.I.D.S. is a death sentence. P.W.A. (Persons With Aids) are often denied treatment and medical attention, living not even half that of H.I.V.+ people on the outside.

Queers who are H.I.V.+ face rejection through the medical establishment because many doctors don't want to come in contact with anyone infected with the virus. P.W.A. are also humiliated and made to feel ashamed by prison guards. (not to mention murdered) They (prison guards) wear rubber gloves and masks when detaining people infected, for whatever reason.

Many queers in prison who are H.I.V.+ do not even know and suffer from side effects. Their last days are spent in prolonged agony. The highest number of P.W.A. are black and Puerto Rican wimmin, which reflects racism in our entire justice system.

Queers are taking the first step to combat A.I.D.S. through education and support groups for persons infected. However, many of the people on the medical staff are still reluctant to have any contact with H.I.V.+ prisoners.

KEEPING US "IN" THE CLOSET

This message is dedicated to all you "straight" self-proclaimed anarchists, why do you still want us to stay in the closet. Have you ever noticed how homophobia is always the last topic to be dealt with? Why? Who made a "list" of importance? Why is it that anarchists seem to want to kill anyone who makes a racist remark, but overlook a homophobic one.

Now lets look at "anarchist periodicals", how often do you see homophobia mentioned in articles dealing with racism, sexism, animal liberation etc... How many anarchists even know any queers, oh unless they go out of their way to meet one so they can't be homophobic right? Wrong.

Anarchists will tell you there for queer equality just don't push it in their face, no same sex couples kissing in front of them. Make sure not to confront them when there sitting around getting drunk, "Homophobia can wait, were talking about those racist skinhead bastards."

How about anarchist gatherings when queer issues are brought up, then shut-up and let the handful of queers speak on the issue. Fuck-you it's not my job to inform you about queer liberation and homophobia, your the cause of this problem, you created it, it's your job to fix it.

FACTS AT A GLANCE - WORKPLACE

1. Although wimmin account for 2/3 of labour force growth in Ontario, they are clustered into 20 of 500 occupations, and 71% of all part-time jobs. Moreover, racial minorities have to make three times as many applications as white applicants to get one interview.
2. Wimmin make up 3% of all apprenticeships in non-traditional trades.
3. In 1987, unionized wimmin earned an average of \$3/hr more than non-unionized wimmin, but only 26% of Ontario wimmin are organized.
4. In 1986 the unemployment rate for aboriginal wimmin was 15%, almost double that of wimmin as a group.
5. By the year 2000, 85% of workplace entrants in Ontario will be wimmin and minorities.
6. Wimmin represent 57% of minimum wage earners.
7. In 1989, 29% of all paid female workers were unionized compared to 38% of men. There has been a 5% increase in wimmin's unionization rates since 1980 compared to 1% for men.
8. In 1991, wimmin made up 45% of the workforce, compared to 36% in 1975. Wimmin accounted for almost 3/4 of all employment growth between 1975 and 1991.

demonstration against the constant attacks.

The demo was at Titan Mall (a few blocks from the school) June 17th/93. The pigs were everywhere. We were told later they had ambulances, a helicopter and back up hiding out about 1 mile away. At 1:00pm over 200 students came and all marched from the Titan Mall to the plaza where most attacks take place. ARA spoke, and many students talked on changing the school, getting racists out, and those who have been attacked by white supremacists spoke about their experiences. Parents spoke in support of helping the students getting rid of racists in the school. After the speak out, they went directly to the school, while the pigs and teachers blocked those trying to get on school property. Angry students and parents confronted Bob Elliott, and he denied everything, claiming "his students", did not feel there was a problem, but outside groups were brainwashing them to think there is. He then walked away and proceeded to get all the white students who didn't participate in the demo safely into the building. It was a day of success for Orchard Park students, and in the future there will be no tolerance for racists in the school anymore!

AFTER THE DEMO

Twelve racists were arrested following the

demo. We all know that isn't going to accomplish shit, but the school board sees it as a solution. When the pigs arrested them, they somehow forgot to read any of them their rights. They were all released on bail, and received 9:00pm curfews. One student asked the judge to have his curfew dropped because he didn't want one, and it was immediately dis-

missed. Since their rights were not read, all charges will be dropped. A minor mistake made by our friendly local pigs? Not a fucking chance! Support Orchard Park students in battling racism. Help them get those bastards right out of their school!

HAMILTON ANTI-RACIST ACTION

...cont. from page 9

ine if the protest had been a black protest, there would have been a much larger crackdown, probably murders, an all out war. But while the AWB were attacking the building, riot police kept watch from a balcony above the ground floor, but of course took no action. Again keep in mind that if it had been black protesters there would have been a swarm of machine gun fire from the police.

The AWB and other white-extremists groups involved, mostly Afrikaner's, the assault on the talks site was merely the opening action in what they promised would be a bloody war against black-majority rule and for a self-governing white homeland. Eugene Terre Blanche, leader of the AWB, said "You can be certain we will not let our fatherland be stolen by people who are killers, terrorists and murderers."...who? oh ya! The AWB themselves.

On the other side there are many groups who are willing, training and ready to fight against the AWB and others. There are also a number of attacks on Afrikaners mostly farmers. At least 200 white farmers have died in the last year by attacks of black militants. On July 25 at least 10 whites were killed and 50 injured as black militants attacked a

crowded white South African church. They threw grenades and fired AK-47 assault rifles and then trucked off.

The proposed war in South Africa seems to be brewing quickly, militants on both sides vow a fight to the death. The AWB say "Now the time has come to end our weakness and do what the Amerikkkan and Australian colonists did: kill enough of them so that they will never be a problem again." and the black leftist group Azanian People's Liberation Army (APLA) say "It is the Boers, whether they are in the police or army or on the farms, who have been our oppressors. They must die or go - all of them."

The Deadlock

Through many years of repression, murder, and torture by apartheid, and white-minority rule. We can see the forecast of turmoil in the future. While both sides of the issue try to arm themselves for what is expected as a race-war, the results are likely to be bloody. I myself am against the AWB and all other white supremacists groups, I myself can only see the destruction of this hate mongering group. But I myself am not in favour of a Stalinist, or black majority rule, or rather the ANC. The ANC seem to be the new op-

pressors in waiting. But while 27 April 1994 nears I think everybody grows a bit more frightened everyday, to see what the passes are going to result to. From the system of hatred, to imprisoning thousands, killing thousands, and the rising tide of brutality, the people of South Africa want to see the coming of day when they will have their liberty and the exploiters are destroyed by the exploited. The pseudo left groups in South Africa who want to place another system over the present are just as wrong as apartheid government themselves. The Leftists, anarchists, etc... will be the first to be round up and sent to camps such as the ANC camps where torture, executions etc... have been proven rampant. What will be the outcome, is it a deadlock where the bloods runs forever, or will the people, through vivid experience and torture of apartheid realise the wrongs of government and not depend on the ANC and other people wanting to supply a restriction of oppression. We can see the mass support for the ANC, and the mass opposition of the ANC and the AWB so the deadlock stands, stands for consequence.

GET USED TO IT!

PRIDE DAY-JUNE 27

The 1993 gay celebration hit the streets of Toronto. Approximately 100,000 queers roamed downtown Toronto and what a beautiful sight it was! Same sex couples kissing and holding hands, without the interference of heterosexuals attacking us. The parade itself lasted 2 1/2 hours, involving floats, cars, trucks and queers on foot. Banners ranged from lesbians of colour to gay fathers. The most dramatic statement was "a fairy who would blow a whistle then chalk an outline of your body as a remembrance of those who have died of aids. Proud homophobes marched around 1 hour earlier (small number) saluting us with their middle fingers and telling faggots to fuck off. Where would we fuck off too? Back to Church Street? (queer ghetto in Toronto) Everyone ransacked the bars, hung out and were just being queers. The street also had booths, workshops and handed out free condoms. Over all Pride Day was a big success, lets hope next year is even queerer.

PROTEST AGAINST ANTI-NUDITY LAWS

In Waterloo park Ontario, about 13 wimmin bared their breasts on Saturday July 17 in what was know as Walk-A-Breast rally. In Vancouver, over 13 wimmin staged a bare-breasted march on city hall and in Guelph wimmin walked about 2 kilometres to commemorate the second anniversary of Gwen Jacob's "Indecent Exposure" arrest when she was convicted and fined \$75 for baring her breasts during a stroll on one of the hottest days during the heat wave in July 1991.

They were all protesting the discriminatory and patriarchal laws that prohibit wimmin to go topless. This has been the second year commemoration for Gwen Jacob and we hope to relive the day where there will be no more marches, for there will be no need for them.

RAF MILITANT KILLED BY GERMAN POLICE

On Sunday, June 27, two members of the RAF were surrounded in a railway station in the town of Bad Kleinen. Apparently, the GSG-9 ("anti-Terrorist" unit) moved in on Brigit Hogeferd and Wolfgang Grams after they had left a railway restaurant and were entering the tunnel platform. Brigit was captured,

but Wolfgang managed to escape up a set of stairs where there was a shoot-out in which a GSG-9 member was killed, and a railway police person was injured as was Wolfgang. According to bystanders, a police officer then went up to Wolfgang as he lay injured and shot him in the head from a distance of about 5cm. The police are claiming Wolfgang committed suicide.

Subsequently, about 50 leftists were arrested by police in Dortmund, Frankfurt, and Gelsenkirchen. Shortly after, all were released. Officially, police are saying that they have arrested 9 people suspected "terrorist" connections.

Both Wolfgang and Brigit were active in RAF political prisoner solidarity campaigns in the late 70's and went underground in 1984.-Arm The Spirit

WHITE SUPREMACISTS ARRESTED

Eight White Supremacists have been charged by the State of California in what was stated as a "Plot to incite a race war."

These fascists were connected to such groups as the Church Of The Creator (COTC), White Aryan Resistance (WAR), Fourth Reich Skinheads, and others. They planned to bomb the city's oldest church, the First African Methodist Episcopal Church (AME), drive by and machine-gun it's congregation. The AME has been very prominent since the beating of Rodney King which prompted the LA Riots. They have had about

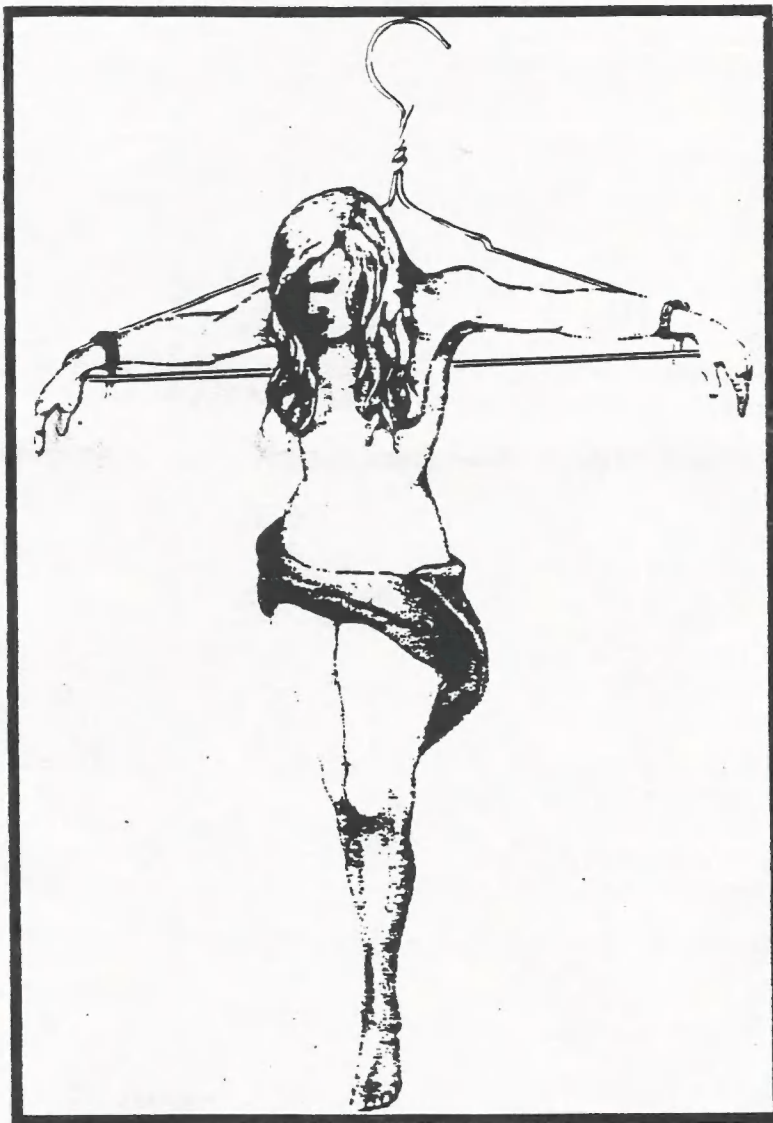

9,000 members organizing food banks, clothing drives, small business loans and political strategy sessions. Other targets were Rodney King, Louis Farrakhan, Rev. Al Sharpton, Jewish leaders, and hip-hop bands such as Public Enemy.

Two white supremacists, Christian and Doris Nadal that were arrested were examples of the typical rich class. Complete with Mercedes coupe, pool and a cargo plane with a swastika painted on it's tail. They had a portrait of Adolf Hitler on their wall, a Nazi Flag hanging in there garage and guess...yep! Fascist-skinheads with a current visit. Another

White Supremacist arrested was Chris Fisher, head of Fourth Reich Skinheads who was arrested while preparing to send a letter bomb to an Orange Count Rabbi.

These fascists are still preparing for a race war they have the arms, and they have ability(unless we take that ability away). The FBI and police just put a dent in their work, we must never give up and let the "authorities" make it look like they have stopped the race war. We must stop them, fight fascists where ever they are, and never give up until victory!

Keep Your Doctrines Off Our Bodies

ANOTHER ABORTION DOCTOR SHOT

A womyn was arrested in Oklahoma City for the suspicion of attempted murder on an abortion doctor who was shot in both arms outside his Wichita abortion clinic. Dr George Tiller as other abortion doctors sometimes wear bulletproof gear and travels with a guard dog. Tiller is one of the few U.S. abortion doctors who perform late-term abortions, he has been a frequent target of protests.

The shooting was the second of a physician outside an abortion clinic this year, and comes days after an Alabama priest (Rev. David Trosch) stirred controversy by trying to run a newspaper ad that advocated killing doctors who do abortions. The ad was going to read something like: "shooting an abortion doctor is justifiable homicide."

The other abortion doctor killed this year was David Gunn. He was getting out of his car to enter the clinic and was shot and killed by an anti-choice fanatic.(more info in issue #7 of Animadverse)

Anti-choice fiends fuck-off!!! All Wimmin have the freedom over their own bodies, reproductive freedom, sexual freedom and most of all Freedom of Choice!!! Shoot yourselves with your guns.

NATIVE NEWS

INDIGENOUS PEOPLE TAKE ACTION

On 18 August about 200 mostly Indigenous people from southwestern Ontario gathered in Hamilton to protest a new taxation policy. This new taxation policy would tax Natives who live off the reserve but work for a Native employer located on a reserve. This means lower wages and higher unemployment.

The protest began at 11 a.m. at the general division courthouse in Hamilton and went to the Revenue Canada building, where protesters filled the lobby, chanting and pounding on drums. When their demands weren't met at 2:00 about 50 of the protesters, mostly natives, charged into the income tax office. They filled chairs and sat on the floor, refusing to move until a written confirmation that a meeting would be set up with the revenue assistant deputy.

The police couldn't move the people and five hours after the protest started their demands were met. The meeting was set for Sept. 7.

ANNUAL INDIGENOUS BORDER CROSSING

About 200 Indigenous peoples from Amerikkka and Canada joined together in Niagara Falls 1993 17.July to commemorate the border crossing celebration, which was founded in 1926. All traffic was stopped and the bridge was empty. A luminous but angry crowd emerged with flowing flags, and feathered head-dresses. When they crossed the bridge they yelled indigenous calls, and broke a silence through the crowd. They passed through Canadian customs without being searched and completed this years crossing in reminder of the obligations governments owe to Indigenous peoples. This also bring us in mind with David Redwolf, if you haven't read Animadverse before you might be interested in closer detail with David Redwolf's case. He is a descendant of the Mohawk Nation, Six Nations of the Grand River Territory. And he was charged and arrested on his own land with "overstaying" his visit in Canada. (For more info write us.)
